FOR IMMEDIATE RELEASE

AdvancedMD Appoints NextServices Inc. as Authorized Solution Provider in the SE Michigan Area

*New Representative offers the SE Michigan area local service for
Web-native Medical Practice Management and EMR Software tools*

SALT LAKE CITY- July 26, 2005 - AdvancedMD Software, Inc., the No. 1 Web-based software provider for physician office management, named NextServices Inc. as an Authorized Solutions Provider. This appointment will enable local medical clinics closer access to the value-added services provided by NextServices in conjunction with the AdvancedMD system.

Services offered by NextServices include:

- **Business analysis for medical practice needs.** As medical offices consider new services and software for their billing and clinical records, a third party's outside view can facilitate a better overall solution as well provide superior options and increased savings.
- **Practice Management and Billing systems sales and service.** The bedrock of any business is how well the revenue cycle works. Quality systems and effective implementation can ensure good cash flow. Streamlined processes and seasoned billing/coding professionals ensure maximum profitability.
- **EMR system sales and implementation.** Electronic Medical and Health Records are quickly becoming a necessary technology for most offices. Selection and implementation is key to an effective solution.

Kevin Burdick, National Sales Manager for AdvancedMD said, "NextServices was selected because of their significant market knowledge and industry experience, their commitment to service and quality. We are very excited to have NextServices as part of the AdvancedMD team."

About AdvancedMD:
